

Skills, ready for the shift ahead.

A Belgian learning technology company.

Your workforce is your transformation plan. We help your people learn faster, stay safer and work smarter — with role-based tracks, assessments and job support that plug into the tools you already use.

THREE SERVICES, ONE GOAL

Skills Accelerator

Blended learning that ends in real proof. One learner, one competency record, one dashboard your team can trust.

For programme and capacity-building teams

AI Buddy

Answers at the moment your people need them. Grounded in your manuals. Works on any phone, even offline.

For technical and field teams

Learning design & advisory

We shape the course with your experts, then localise it into Vietnamese. Accessible by design, and easy to run.

For HR, L&D and course owners

TRACK RECORD

46

sustainability modules incl. train-the-trainer for UNIDO's LKDF (2024)

3,000+

staff trained in safety at Ineos / Praxis; 99–100% VCA pass rate

1,000+

employees on bilingual GMP e-learning at Ajinomoto Omnicem

24

HIV-prevention modules in EN/RU for EATG; satisfaction above 85%

Also: UNIDO Skills Accelerator pilot with Kenya Dairies (2026) · Legend Biotech · Fluvius / HIT-FiDigO · Elia Group · Luminus · Brussels Airport Company · UN Women WEPs · G4S · ZF · Cohezio · EATG

"High-quality work – well-organized and engaging deliverables that sparked significant interest among colleagues." **LKDF, UNIDO**

HOW WE CAN HELP

How we help industry and utilities

— **Skills Accelerator** — role-based learning and assessment for technical, safety and compliance roles — with certification, dashboards and an audit trail across sites and languages.

— **AI Buddy** — answers at the machine, on any phone, grounded in your SOPs. Multilingual, offline-capable, always current.

— **Learning design & advisory** — we redesign, produce and localise your e-learning — and plug it into your existing LMS or HRIS. White-label option available.

CO-CREATION

Built with your team. Runs on your systems.

Role-based tracks, assessments and AI-assisted job support — co-created with your HR, L&D, EHS and operations teams. Localised, audit-ready and integrated with your existing LMS.
